

## Liverpool Counts Quality Mark

### Top Tips

We would like *you* to make a difference.

- Be aware of what you say about maths, especially around children.
- Challenge ANYONE that you hear making negative comments about maths.
- Any time you hear celebrities in the media saying that they 'can't do maths' or making negative comments about maths, discuss it with your child.
- Share your own enjoyment of maths and highlight when you have used it in everyday life.
- Dispel the myth that there is a maths gene and that only a few people can be good at maths.
- Be positive with your child – praise their effort with maths not just achievement!
